Philadelphia, PA 19139

Dear Mr. Max Paul:

The Rock-n-Roll Marathon was a huge success. With your support the Leukemia Society of America (LSA) raised \$12,000,000 nationwide, and 1,000,000 locally, and I completed a marathon in their honor. The night before the marathon we had a pasta party, with a number of guest speakers. The one that impressed me most was a 10 year old child, whose Leukemia was in remission. He spoke so eloquently. He told us of his trials, tribulations; and triumphs as well. He then proceeded to sing a song that inspired me right into the race the following day. There was so much support along the course from LSA volunteers, high school cheerleaders, and rock-n-roll bands. Whenever I felt myself tiring, I would think of all the Leukemia patients and their long continual battle, and I'd say to myself there is no way that I am going to give up on 26.2 miles. With your support and prayers, research for a cure for Leukemia and its related cancers, can continue. I thank you immensely, and may God bless you for having a caring heart.

Sincerely yours,

  
Antoinette Phillips

P.S.

I apologize profusely for my tardiness in getting this letter to you.
